

~~A GOOD IDEA~~

He's got his heart on his sleeve
and you're looking rather pleased with yourself.
I'm hoping to get what I need
and maybe a little something more for me and myself.

I've got a good idea:
One of us is going to fall in love tonight.
When I get a good idea
you know it's going to be one hell of a night.

He's got some real style.
Young with wild eyes - just the type for me and myself.
You're having a really good time,
sorting out the guys for the ones you'd really like for yourself.

I've got a good idea:
One of us is going to fall in love tonight.
When I get a good idea
you know it's going to be one hell of a night.

If it's all in fun,
never hurting anyone.
No other demands,
being here is the plan.
So let's see where this night will lead...

I've got a good idea:
One of us is going to fall in love tonight.
When I get a good idea
you know it's going to be one hell of a night.
