

# MY NEW FAVOURITE FRIEND

So it looks like you're going to be my new favourite friend.  
Want to come out tonight with me in my new favourite dress?  
Got a couple of guys we really need to get over.

the pretty boys at the bar  
make it easier  
when we're not quite sober.

So, hey, let's go for a drive!  
We've got our songs,  
a guitar to strum along,  
hey, we can stay up all night.

So it looks like there's going to be no more us and them,  
but we're not the ones who will live our lives with regret.  
Got quite a few memories we need to really erase.

the pretty boys at the bar  
make it easier,  
but I can still see your face.

So, hey, let's go for a drive!  
We've got our songs,  
a guitar to strum along,  
hey, we can stay up all night.  
We stayed up all night.
